

Childcare Access Program

Access free childcare during counselling sessions

Childcare Access Program

WANADA's Childcare Access Program offers free childcare for under school aged children while parents and caregivers access alcohol and other drug services with our member agencies.

How Does It Work?

- The child is booked into a participating childcare centre for the day of the appointment
- After the session the counsellor will issue a Childcare Access Program voucher to the parent and/or caregiver
- When collecting the child, the voucher will be presented to the childcare centre as payment
- The voucher is then sent to WANADA to cover the costs

For more information, or to request a list of participating centres, contact WANADA:
